

WinDoor Solutions
For Aluminum and UPVC Systems

About Us

Windoer Solutions Company and Factory is a leading company specializing in metal industries in Egypt and the Middle East, with over twenty years of experience. We specialize in all aluminum systems, including structural glazing, curtain walls, windows, and doors. We also manufacture UPVC windows and doors systems, aluminum and iron Shutter systems, laser-cut and wrought iron doors and fences, and all types of tempered and triplex glass systems for facades, partitions, and handrails. Additionally, we manufacture and install all types of folding door systems. We always strive to achieve the highest levels of quality and craftsmanship to satisfy our clients and deliver products that exceed their expectations, in accordance with our company policy. Our team possesses extensive experience in this field, enabling us to compete effectively in the Egyptian market among the leading companies in the Arab Republic of Egypt. We always aim to be the best and to establish strong partnerships with major contracting, real estate development, and tourism companies in Egypt and the Middle East.

Our Vision

To be the leading and most innovative destination in Egypt and the Middle East for providing integrated architectural solutions to the residential and commercial sectors. We aspire to transform the traditional concept of windows and facades from mere structural elements into works of art that combine modern technology with the highest standards of safety and sustainability."

Our Mission

"At Windoor Solutions, we are committed to delivering an exceptional experience for our clients through:

Innovation: Providing the latest shutter and glass facade systems that keep pace with global architectural developments.

Quality: Manufacturing products from aluminum, tempered glass, and steel to standard specifications that ensure maximum durability and insulation.

Integrated Solutions: Offering a comprehensive package that includes pergolas and metal systems that meet the aspirations of designers and homeowners under one roof.

Professionalism: Committing to punctuality and engineering installation standards to guarantee our clients' peace of mind for years to come."

Why Us?

Integrated Services: We provide all solutions (from facades to pergolas) under one roof.

Uncompromising Quality: We use the best international profiles and impact-resistant glass.

Ultimate Comfort: Complete insulation against noise, heat, and dust with the latest shutter and window systems.

Engineering Precision: Professional execution supervised by engineers and technicians to ensure the highest levels of accuracy.

Partitions, and Shower
Enclosures)

Our

Available Products:

Steel Doors,
Windows, and
Fences

Automatic Gates
and Photocell
Systems

Aluminum
Kitchens

Metal Pergolas

Folding Systems
(All Types)

Additions

In our products, we use the finest accessories from leading international companies such as ALFA (Portugal), Domas (Greece), Forn and Kal (Turkey), and Maco (Austria). We also use the best international glass types, such as Saint-Gobain (France) and Sphinx glass. The glass is treated at Dr. Gresh's factory or the Arab Union factory. We also use the best German weather-resistant rubber. As for the paint, it is sourced from companies like Al-Dawliya, Alwan, and Alumil, and comes with a -10year guarantee.

Manufacturing Capabilities

Our manufacturing strength relies on the integration of technologies to ensure extremely precise cutting and assembly, guaranteeing complete insulation. We implement advanced thermal insulation systems that contribute to energy efficiency and resistance to weather factors conditions. We possess advanced surface treatment and thermal coating lines, giving our products a long lifespan and a modern appearance. All facades and windows undergo rigorous quality control testing to ensure structural durability and the smooth operation of mechanical systems. Our high production capacity allows us to meet the needs of large-scale projects and complex glass facades with quality and professionalism. We are committed to the continuous development of our workforce and technologies to remain a trusted partner for architects and developers in building a sustainable future.
